Residents will be interviewed to determine their dining and activity preferences, be it in their rooms or the dining room setting. Social distancing of 6 foot must still be maintained. Residents will be assisted to perform hand hygiene before and after meals and activities. They will also need to wear a mask to and from the dining room. Masks may only be removed while consuming food and beverages.

Pets are now welcome to visit their loved one. However, we must have a copy of current vaccination records on file and the pets must be on a leash and must not be experiencing any sickness at the time of the visit. Residents will be asked to perform hand hygiene after touching the pet.

Additionally, we are now welcoming back our volunteers. Volunteers will be scheduled through the activities department and will have to pass entrance screenings and COVID testing with the same intervals as our staff members.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 301-334-2319.
